BRING OUR ECONOMY BACK TO LIFE

UDIA VICTORIA IS URGING THE ANDREWS GOVERNMENT TO STIMULATE VICTORIA'S BUILDING, DEVELOPMENT AND CONSTRUCTION INDUSTRY TO **REBOOT VICTORIA'S ECONOMY. OUR INDUSTRY IS ABLE, READY AND WILLING TO DELIVER.**

INCENTIVISE NEW HOMEBUYERS TO GET INTO THE MARKET

State Government stimulus measures and incentive packages would **encourage people to buy a new home in Victoria.** This is critical to broader economic activity including supporting jobs, retail spending and tax revenue.

ACTIVATE NEW DEVELOPMENT

Revolutionise Victoria's planning and development approval systems to **lock in job-creating projects and investment,** keeping up to 300,000 Victorians employed in the building, construction and development industry.

TAX REFORM

19-34% of a local homebuyer's purchase price is government taxes and charges. We need tax adjustments to make housing affordable and make sure **Victoria stays competitive.**

VICTORIA: THE HOMEBUYER STATE

Population growth is the engine room of our economy. We must elevate Victoria's position as an attractive place to live, work and invest. **It all starts with encouraging people to call Victoria home.**
