Who are we?

The Urban Development Institute of Australia Victoria (UDIA Victoria)

Established in 1975, UDIA Victoria is recognised as the peak membership body for the urban development industry.

UDIA Victoria works closely with state and local government decision-makers to ensure the industry has a strong voice on the issues that matter. Our members are our focus. We deliver influential advocacy, industry intelligence, professional development, premium events, a recognised and respected awards program, and business building insights to over 7,500 professionals across 320+ member organisations in both the public and private sector.

Our strength lies in partnership with our members. Together we shape policy, foster government relationships, and drive innovation that shape the places where Victorians live, work and thrive. Our advocacy focuses on key priorities including housing affordability, planning system efficiency, tax reform, and the delivery of housing, infrastructure and services for Victoria's rapidly growing communities.

UDIA provides trusted, evidence based advice and practical solutions to policymakers and regulators. We're recognised for our credibility and commitment of connecting industry expertise and government policy to create strong, more liveable communities.

UDIA membership provides unparalleled advocacy, professional development and networking opportunities. More than that, we are a community that seeks to further the industry, and facilitate the delivery of homes across Victoria.

There are so many ways to be part of the UDIA Victorian Community, and I encourage you to tap into all that we offer.
